The most common reason audio gear is not working is due to it being disconnected. Please reconnect your audio gear, and the application should automatically attempt to re-enable it. If it does not, select the 'RESCAN SYSTEM' button after reconnecting the device. If you are still having issues, go to the Audio Gear Screen where more configuration options are available SCANNING FUNCTIONING NOT FUNCTIONING Input device is not connected CANCEL GO TO AUDIO GEAR SCREEN RESTART APPLICATION getting started Welcome to JamKazam! Here are the top things you should do to get the most out of this service. Be sure to get through all of these for the best experience, but you can spread them out over multiple visits! Click SET UP GEAR to configure and test your audio gear and network connection. Once you've completed this step, we'll drop you into your first session, and you can explore the session interface. Invite others to join JamKazam. You'll be connected as friends, which makes it easier to get into sessions together. And it will grow our community, which helps us as a young company. Click the icons below to invite! Facebook E-mail Google+ JamTracks are the best way to play with your favorite music. Unlike traditional backing tracks, they are complete multitrack recordings, with fully isolated tracks for each part. Check it out! You can create sessions that start immediately and see who joins, or you can schedule sessions, invite friends, and others from the community, and manage RSVPs. Learn how. In addition to creating your own sessions, it's awesome to join others' sessions. Watch this tutorial video to learn about how to find and select good sessions to join. There is a lot you can do with JamKazam, and more great features available every week. Check the following link for a list of videos and other resources you can use to take advantage of everything that's available: JamKazam Tutorials & Resources join test session VERIFY YOUR SETUP WITH A TEST SESSION You have set up your gear and verified your network, but does it really work? The way to find out is by joining a test session. This will familiarize you with how sessions work in JamKazam, and if you are lucky, someone else might even join in. change search location Specify which location you want to search from. Adjust Gear Speed If you are failing the I/O test on your audio interface, or if your audio sounds bad, try selecting a slower audio processing speed. Your goal is to pass the I/O test and hear good audio, while sacrificing as little speed as possible.
